WORK EXPERIENCE

Aromatic Prep Tutoring | Rockville, MD

AI Technical Operations Analyst

January 2026 – Present

- Leverage AI agents as primary engine for operational workflows, automating code production, dataset analyses, and process optimizations.
- Direct AI-powered pipelines to surface inefficiencies in day-to-day processes, technology platforms, and workflows to translate outputs into actionable improvements.
- Build applications for competitive product monitoring and large-scale data analytics (n=100k+), enabling founder-level strategic decision-making.

Identity Digital | Bellevue, WA

Data Science Analyst Summer Intern

June – August 2025

- Developed and maintained data-processing features by extending automated Python scripts running in a Kubernetes cluster, improved reliability and scalability of recurring data processing jobs.
- Enhanced data access and analysis workflows using Python and MySQL, reducing manual effort for the team and improving query performance and result consistency.

CoreTechs Consulting | Kensington, MD

Software Engineering Summer Intern

June – August 2024

- Improved CI/CD pipeline efficiency by streamlining build and deploy steps, reducing deployment turnaround time and improving reliability of feature releases, including a Slack-integrated website chatbot.
- Built an automated load-testing client to simulate high-traffic usage, validating system stability and identifying performance bottlenecks before production releases.

Deli Italiano | Great Falls, VA

Delivery Driver

June - August 2023

Ben & Jerry's | Vienna & Fairfax, VA

Supervisor & In-Store | Event Truck Server

June - August 2020, 21, & 22

Sestra Systems | Sterling, VA

Special Project Intern

Summer 2019

ACHIEVEMENTS & CERTIFICATIONS

Eagle Scout

Boy Scout Troop 979 | Vienna, VA

2015 - 2021

All World Gaming

eSports Professional Gamer

2019

EDUCATION

Bachelor of Science, Computer Science
James Madison University
December 2025

U.S. Citizen, eligible for Security Clearance

RELEVANT COURSES

Discrete Structures I & II
Python
Software Engineering & Development
Algorithms Design & Data Structures
Computer Systems
Object Oriented Design
Operating Systems
Parallel and Distributed Systems
Systems Programming
Web Design & Development
Topics in Data Visualization

RELEVANT SKILLS

AI Development, Integration &
AI Agent Utilization
Agile Development
Django Framework
Proficient Skills & Languages:

- Git
- Python
- Kubernetes
- Dask
- Ruby
- Haskell
- Rust
- MPI
- OpenMP
- CUDA
- HTML
- C | C++
- Java | JavaScript
